

- Generator Set:**
- Diesel and Natural Gas
 - 8kW to 3MW
 - EPA/CARB Tier II or III Certified
 - Small Footprint
 - Co-generation Systems
 - Sound Attenuated Packages

- Remote Monitoring:**
- Secure Network- Web Based Software
 - Monitors and Manages Standby Genset & UPS 24/7
 - Alarm notification, fuel dispatch, system tests, & alarm/event history reports
 - Data Collecting for Troubleshooting Engine Performance
 - Remotely Start & Test Equipment

DESIGNED POWER SYSTEMS

- EFFICIENCY YOU CAN TRUST**
- Tested Interface Compatibility
 - Reliable, Seamless, & Harmonious Componentry
 - Decrease Installation Time
 - Single Source for Service, Parts, & Sales: Save Time & Money

- COMMERCIAL ENGINE SERVICE**
- Annual, quarterly, & monthly maintenance
 - Load bank & meggar testing
 - Emergency service 24/7
 - Over 300 certified Technicians

- Rental Temperature Control Systems:**
- Heat/Air Conditioning Units, 2 1/2 to 90 tons
 - Air & Water Cooled Chillers from 25 to 500 tons
 - Cooling Towers 180 to 750 tons

- Compressed Air:**
- Oil Free Air 400 to 1500 CFM
 - Oil Flooded Air 375 to 1600 CFM
 - New & Used Sales 185 to 1900 CFM
 - Authorized Sullair Service & Parts Center

- FINANCIAL SERVICES**
- EQUIPMENT FINANCING AND LEASING:**
- Capital and Operating Leases Available
 - Purchase Option Leases and Rent to Own
 - Construction Financing

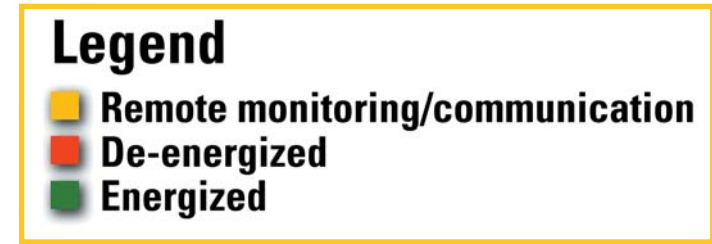

- Rental Generators:**
- 20kW to 2MW
 - Paralleling Capable
 - Sound Attenuated 65dba-72dba
 - Trailer Mounted
 - Turnkey Services

- Automatic Transfer Switch (ATS):**
- Open & Closed Transition
 - Delayed Transition
 - Bypass Isolation
 - 40 through 4000A
 - Mechanically Held Contactor
 - 50/60 Hz 600 V Class

- Generator Paralleling Switchgear:**
- Redundant (N+1 Power)
 - Load Shed/Buss Optimized
 - Parallels multiple Generators to meet power requirements
 - Increases reliability
 - 480V – 15kV
 - Touchscreen Operator Interface Panel

- Uninterruptible Power Supply (UPS):**
- Seamless transition between Utility and Standby power
 - Battery-Free and Battery UPS Options
 - Up to 97% efficiency
 - Flywheel - 75% smaller footprint than Battery Option
 - Environmentally Safe Options
 - Conditions Power & Regulates Voltage
