Overhaul Protection for trucks (OPT) provides protection against unexpected repair costs for covered components. OPT is another important part of Caterpillar's continuing commitment to superior value & product support. OPT is a Caterpillar engine overhaul protection program developed specifically for truck engines that have received a certified overhaul from any Intelligent Value Participating Dealer. It guarantees your engine will receive a certified overhaul and provide up to 36 months standard warranty against unexpected repair costs for qualified parts that may fail due to defective material or dealer workmanship during normal engine use and operation. See dealer for more details.
