

## RENTAL PACKAGE 150KW ELECTRIC HEATER

### TECHNICAL SPECIFICATIONS

Model.....150KW Electric  
 Dimensions  
 Length.....94"  
 Width.....33"  
 Height.....60"  
 Weight (approx).....2000 lbs

### APPLICATIONS

- Job Site/Construction Heat
- General Building Heat
- Temporary Shelter
- Industrial Heat
- Commercial/Institutional Heating

### TECHNICAL DATA

<b>Electrical Data</b>	460 volt/3 phase/60 Hertz 225 amp 600 volt single pole mount recepticals 185 FLA
<b>Blower</b>	Variable speed motor (440-1760 RPM) up to 10,000 CFM Plenum fan arrangement Belt Drive 19" diameter outlet flange Optional 19" side air intake flange
<b>Staged Heat Control</b>	Discharge air thermostat Return air thermostat 250°F high temp limit (dual)
<b>Machine Control</b>	Hour meter Phase monitor relay Single three-way switch (off/blower/heat) Indicator lights (power/phase failure)
<b>General</b>	Stainless steel construction 10" lockable castors Fork lift pockets on all four sides
