## AIR CLEANERS FOR C13/C15/C18 ENGINES

### GENERAL DESCRIPTION

Air Cleaner reduce contaminants flowing into the air intake system, provide a high level of Engine protection from harmful contaminants and increase engine performance and fuel efficiency.

Dual element air cleaners provide additional protection for the Engine

### FEATURES

- Radial Seal Technology
- Easy to read CAT filter service indicator with manual reset
- Standard Yellow Media
- Constant torque clamps
- Engine rear mounted filters with easy access to service filter to open and enclosed Gensets
- Air filters Designed for 500 hrs of service\*

\*based on dust Concentration levels

Feature Code	Engine model	Dust Environment	Industry	Element	Housing
<b>Dust Concentration level - 1-5mg/m3</b>					
STD AIR	C13, C15, C18	Standard Duty	Factory, Office	Non-Canister	N-A
<b>Dust Concentration level - 5-10mg/m3</b>					
ACLSS04	C13, C15	Medium Duty	Construction, Factory	Single Element	Radial Seal, Metal Body
ACLSS05	C18	Medium Duty	Construction, Factory	Single Element	15" Radial Seal, Metal Body
ACLSS05	C18 PD 50 Hz	Medium Duty	Construction, Factory	Single Element	2off PowerCore Glass Filled Polypropylene Housing
ACLSS06	C18 60HZ	Medium Duty	Construction, Factory	Single Element	18" Radial Seal, Metal Body
ACLSS06	C18 PD 60 HZ	Medium Duty	Construction, Factory	Single Element	2off PowerCore Glass Filled Polypropylene Housing

# AIR CLEANERS

Feature Code	Engine model	Dust Environment	Industry	Element	Housing
<b>Dust Concentration level - 10-15mg/m3</b>					
ACLDE23	C13, C15	Heavy Duty	Heavy Construction	Dual Element	Radial Seal, Metal Body
ACLDE24	C18 50HZ	Heavy Duty	Heavy Construction	Dual Element	15" Radial Seal, Metal Body
ACLDE24	C18PD 50 HZ	Heavy Duty	Heavy Construction	Dual Element	2off PowerCore Glass Filled Polypropylene Housing
ACLDE25	C18 60HZ	Heavy Duty	Heavy Construction	Dual Element	18" Radial Seal, Metal Body
ACLDE25	C18PD 60HZ	Heavy Duty	Heavy Construction	Dual Element	2off PowerCore with Pre-Cleaner Glass Filled Polypropylene Housing
