PETERSON

www.petersonpower.com/products/rental

24/7 Emergency Support

With our 24/7 availability, we've got you covered on your planned or emergency electric power or HVAC needs.

Climate Control

When faced with the need for temperature control, we have the equipment to either cool, heat or maintain your desired temperature.

Extended Power Loss

Our experts can prepare customized power and HVAC solutions to the needs of your project.

Auxiliary Cooling Systems

Our experts can provide you with a temporary chilled-water cooling system to prevent any operational failures for your business.

Temporary Project Power

If you need temporary power for your industrial and commercial needs count on our expertly maintained, top quality equipment.

TEMPORARY POWER

Whether faced with planned or emergency electric power needs, you not only demand reliability—you need availability. With our 24/7 availability, we've got you covered. We offer units for every application, with sizes ranging from 20 to 2,000kW. Whatever your specific requirements, our generators are equal to the challenge, providing power when and where you need it most.

Generators

- 20kW to 2,000kW Generators
- Mobile Industrial Generators
- Containerized Industrial Power Modules
- Power Distribution
- Power Transfer Switches
- Transformers
- 24/7 365 Days
- 24 hour Fueling Service
- Extended Fuel Tanks
- Studio Quiet Generators
- Load Banks
- Power Cables

TEMPERATURE CONTROL

Backed by some of the industry's most highly trained technicians and support personnel, Peterson's rental fleet of temperature control units not only delivers high-end performance—it delivers maximum uptime.
